

## **BEAUTIFICATION PROJECT:**

### **Great American Cleanup - Ring Around the School**

- WHO:** Open to all Davidson County Public and Private Schools
- WHAT:** The Great American Cleanup is the nation's largest organized cleanup. Many groups from all over Nashville participate by picking up roadside litter and recyclables in their neighborhoods, around their schools or on their adopted streets. Schools can participate in the 2006 Great American Cleanup AND celebrate Earth Day by organizing a "Ring Around the School" cleanup for **EARTH DAY** during the week before Nashville's Earth Day Festival (Saturday, April 21, 2007 in Centennial Park).
- WHY:** **This is an easy way to clean up your school and participate in Earth Day. We hope everyone will join hands across Davidson County to pick up school litter!**
- WHEN:** **April 16 – 20, 2006**
- HOW:** Students and teachers form a giant ring, close around the school, and move outward to the end of the property while picking up any trash they find. Metro Beautification will supply the trash bags. We will also provide fun student incentives such as activity books, stickers, pencils, etc. Don't forget to take pictures!
- GOALS:** To have as many schools as possible participate in "The Ring"  
Teach proper litter placement  
Environmental awareness  
Encourage a sense of community involvement

-----  
**YES. We would like to participate in Ring Around the School!!!**
